

# Denver Marketing Agency Partners With Dental Business Consultant

Jeff Hopp November 13, 2013

Dental Business Consultant

Denver based marketing agency, Mile High Mobile Marketing has partnered with the national dental consulting firm CTC National to help them expand their online profile and to draw attention to their services.

([Newswire.net](#) -- November 13, 2013) Lone Tree, Colorado -- A dentist provides a valuable health service to their patients, ensuring that their teeth are healthy and in great shape. But what if you're a new dentist that has just completed dental school and are moving into a new area? CTC National is a dental businesses consulting firm headed by Marie Chatterley. They offer full consulting services to their clients as well as practice brokerage in order to help new dentists become established in their

community quickly. "When I was doing my research in school," says Marie, "I found that there were very few resources for a new doctor looking to start a practice from scratch."

Marie has been in the dental industry for 12 years and has been a [dental consultant](#) for 10 of those years. "I grew up in the dental industry," says Marie. Her father was a dental practice broker for over 25 years as her 3 brothers are also practicing dentists. Through CTC International she works with dentists that are just starting out to help them get setup, acquire a practice, or join a partnership. "We start with our clients to help them find the right opportunity. From there we assist in every detail related to running their business from demographic and [market research](#), to finding the ideal location, to lease negotiations, marketing, employee hiring assistance and much more." They help all types of dentists as they custom tailor their services to fit the needs of the individual client.

Since there are numerous other [dental brokerage](#) firms throughout the country that are doing similar work, Marie and CTC National have turned to Mile High Mobile Marketing to help them stay in front of the competition through search engine optimization, video production, and other online profile boosting services. "We do not believe in a cookie cutter approach to practice management systems," says [Marie Chatterley](#). "We pride ourselves in doing a lot of market demographic research at the onset so our clients are in an even better position when they get started. Through this new partnership with Mile High Mobile Marketing, we're now in a fantastic position to reach new clients and to be able to offer additional assistance to our clients to help them create the practice of their dreams." If you are a dentist that is interested in acquiring a practice or expanding, CTC National's website offers a vast wealth of useful information as well as the means to get in touch with Marie.
